

The inclusion of physical activity facilities, Multi-Sport Court/Gym and activity areas – EMERGENCY AMENDMENT

This Union Notes:

1. That physical activity aids mental health, physical fitness and social interaction in students.
2. That there is a significant shortage of bookable physical activity space on the Coventry campus at the current time
3. There has been continuous growth in sports members year on year
4. That the James Starley building will be demolished and the area be landscaped
5. There is a demand from all sports to have more competitive and recreational facilities
6. That outdoor gyms and activity spaces are used by communities and aid healthy life styles
7. CUSU clubs spend a significant amount of money, running to tens of thousands of pounds on external facilities every year
8. The University reputation is threatened by the limited physical activity facilities available

This Union Believes:

1. That the University needs more physical activity facilities in order to fulfil the needs of its students
2. That the James Starley area should be redeveloped with the inclusion of space for a Multi-Sport Court, outdoor gym and activity space and Table Tennis areas.
3. That the Multi Sport Court should be bookable but free to access.

This Union Resolves:

1. For the Executive team to immediately lobby the university for the inclusion of the above in their plans
2. To instruct the students to address their concerns directly with the Vice Chancellor

**Proposed by: Scott Staniland (Vice president for Sports and Wellbeing)
Seconded by: Francis Ahanonu (President)**
